SJ1.01: QUALIFIER FORMAT

Qualifiers may run in a variety of different formats at each areas discretion, in accordance with the Official Steward. The format must be available to all competitors and relayed in the schedule. Where a format changes in the run up to the qualifier, all team managers must be informed. Reasons for changing the format could be due to weather and or numbers entered.

The format may be as follows (qualifiers may also run under the championship format):

- Option 1 – 1 round divided into two sections. First section - Time allowed, second section - against the clock
- Option 2 – 2 rounds with a jump-off following straight on from the second round, with all competitors going forward to the jump-off section
- Option 3 – 2 rounds with a jump-off following straight on from the second round, with only competitors who are double clear move onto the jump-off section. Teams may then either have a separate jump-off or the second-round times will be used to resolve ties

Championship Format

The championships will run over 2 rounds. Individual competitors who are double clear will continue without stopping to a jump off section on completion of their second round, those with faults will hear the bell and they will need to leave the arena immediately. In the event of there being no individuals who are double clear then the placings will be decided on the times from the second round. Teams who are tied on faults for first place will jump-off separately after all competitors have completed the second round. Where equality exists for first place between 5 teams or less, all team competitors will jump-off. Where equality exists for first place between 6 or more teams, at the discretion of the organiser, one rider will be nominated by the team to jump-off for each team. Lower team placings will be worked out on second round times.

SJ1.2: NUMBERS TO QUALIFY

See CR Appendix 8.

SJ1.3: DRESS, SADDLERY & TACK

See CR Appendices 3A, 3B, 3C and 3D.

SJ1.4: THE COURSE

The course will consist of a designated number of obstacles (see CR Appendix 6) that are to BS/SJAI standard or above. A proportion of the fences should be built with fillers (brushes, walls etc.). Hollow plastic poles are not allowed. All plastic covered poles must have a wooden core to ensure that they are the same weight as a painted timber pole. It is strongly recommended that the top pole of any fence is wooden.

The maximum height of first round obstacles in Area competitions and at Championships is found in CR Appendix 6C. Should the exact heights specified in CR Appendix 6C not be achieved a 5cm tolerance on the maximum dimensions may be employed as a result of material used for construction and/or by position of the obstacle.
